

LiFePO4 25,6 20Ah Battery | Art. 112.504

This 25,6 20Ah LiFePO4 battery is a maintenance free battery which is suitable for different type of applications like cyclic and storage and also has an extremely long lifespan (>3000 90% DoD). With the built-in APP functionality, suitable for both Android and IOS, the battery status can be viewed from your phone or tablet.

The electronics have been adapted in such a way that the battery can be connected in parallel without any problems.

Normal specification	
Nominal Voltage	25,6-27,2V (8S)
Normal Capacity	20Ah
Internal Resistance	≤30mΩ

Standard Charge	
Battery operation temperature range @charging	0~45°C
Normal charge voltage	29,2±0.1V
Recommended float charge voltage (for Standby use)	27,6±0.1V
Allowed MAX charge current	20A@Battery initial Temp 25±5°C
Recommended charge current	≤10A

Standard discharge	
Battery operation temperature range @discharging	-20~60°C
Output Voltage Range	16.0~29,2V
Allowed discharge current	20A Standard discharge current
Pulse discharge current	85A withstand 3s
Discharge Cut-off voltage	8.0V

Mechanical Characteristics	
Dimension	Length 307±2mm
	Width 168±2mm
	Height 211±2mm
Weight	Approx. 7.5Kg

Storage	
Storage Temperature & Humidity Range	Short: within one month -20~35°C, 45~75%RH
	Long term: above one month -10~30°C, 45~75%RH
Self-discharge rate	Residual capacity ≤3% per month; ≤15% per year
	Reversible capacity ≤1.5%per month; ≤8% per year

Cyclic

Solar / Storage

Stationary

Marine
