TB130 STEEL

TB130 STEEL

Refrigerant System: hermetic compressor Secop BD50F formerly Danfoss with adjustable speed and integrated electronic control. The evaporator is foamed inside the four walls of the refrigerator in order to reduce any perforation risk.

Material: The lids and bins are made of painted steel sheet. The corners of the refrigerator are covered by protective plastic angles. The handles are sturdy and retractile in order to reduce the overall size. Inside the new TB Steel you can store a 2 litres bottle in vertical position. The corners are covered by protective plastic angles and TB 130 Steel is equipped with internal light and safety closure as standard.

Certifications: CE, EMC, GS.

Technical data

Height	740 mm
