TB36AM

TB36AM

The TB36AM compressor fridge has been designed to fit under the bunk in the sleeping compartment of long distance commercial vehicles. The sliding drawer arrangement then gives the driver access to the contents without losing valuable space in the cab. The TB36AM is equipped with the super silent BD35F Secop (formerly Danfoss) compressor that grants excellent performances and low consumptions. The TB36AM's cooling system includes tilt cab protection. It has manual thermostat and a pull-out inner basket.

Technical data

Height	250 mm
Width	440 mm
